

Medical Simulation Marketplace Leadership

In today's high-tech markets, leadership must be earned. It comes from listening to customer needs, looking ahead, and delivering quality products. Customers expect the best and we transcend these expectations. Our goal is simple. We aim to provide the best products and services in the marketplace today by understanding our customers' needs, maintaining leading-edge manufacturing processes, and continuously delivering superior quality at competitive prices.

Testing & Analysis

Our commitment to continuously test and measure our products, from concept to market, assures our customers that their products will succeed in the marketplace.

Improvement to Perfection

Our name, 7S³ says it all. Our business strategy is to achieve zero-degree of error in all of our processes. We pursue this goal through customer feedback, attention to product performance, and our commitment to continuous process improvement.

The Best Health Care Treatment
Begins With Comprehensive,
Realistic Training.

CUSTOMER SUPPORT

We are proud to provide industry leading support for all of our training products. Contact us with questions.

INNOVATIVE TRAINING SOLUTIONS FOR THE MEDICAL MARKETPLACE

7S³ understands that the best health care treatment begins with comprehensive, realistic airway training. The Modular Airway Skills Trainer Series was designed with the greatest partners, latest technology, and innovative polymers delivering a proven platform for Airway Management Training. Our trainers deliver high fidelity anatomy & realistic movements for the most lifelike intubation practice on the market. We deliver the most accurate look and feel of a real patient in a cost-effective package. Better training results equal superior patient care.

MODULAR AIRWAY TRAINERS

Through collaboration with educators and health care professionals, and leveraging more than forty years of experience in material selection and precision manufacturing, 7S³ has developed an evolving line of innovative high-fidelity products, providing the premier training platform for airway management.

LIFELIKE INTUBATION TRAINING

Our airway management training is unparalleled in its attention to the details crucial to realistically simulating intubation. This realism ensures that medical practitioners receive training that translates into superior patient care.

REAL-TIME SENSORS

Our expert engineers and skilled artists are dedicated to developing highly accurate modular airway trainers and devices, distinguished by their superior repeatability and reliability. In response to the industry's growing demand for objective assessment and quantitative feedback, we are actively integrating advanced sensor technology into our training products. This sensor technology is evolving; we remain committed to delivering innovative solutions that meet the evolving needs of medical education and simulation.

MODULAR HIGH FIDELITY DESIGN

Our unique Modular Airway Skills Trainers design allows for easy maintenance and replacement of any part within a matter of seconds. We are also the first company to offer swappable anatomy and pathology relative to age, gender, BMI, and ethnicity

DURABLE CONSTRUCTION

Our engineers and technicians are known for their extreme precision and are proud to have designed exceptional products. Our polymers, components, and assemblies integrate seamlessly into realistic medical training products.

PEDIATRIC & INFANT AIRWAY TRAINERS

New Infant Trainer. Coming soon.

Committed to Better Training Results for Excellent Patient Care.

Our team of clinicians, scientists, engineers, technicians, artists, and customer service & support works together to assure your experience is positive. Call 888-722-7224 or visit the website 7-S3.com to begin ordering your training products today.
